"In early 2008 I had the honor to accompany Xia Zhong, CCAI's Charity Project Director, to inspect several orphanages in Henan. I will never forget the depressing scenes – dark and crowded nursery rooms, suffocating smells, messy cribs and beds, dirty and worn clothes and diapers, colorless walls, cold concrete floors, hardly any nannies in sight, and the numb facial expressions of every child, the horrible result of severe neglect and malnutrition..."

Five years later, everything has been transformed by CCAI – now I see bright and colorful nursery rooms, age-appropriate decorations and toys everywhere, brand new child-safe cribs and beds, soft and sweet bed sheets, pillows, and blankets, toddler activity areas, padded floors, bouncy chairs, wall mirrors, and well-trained and caring nannies who lovingly hold and feed the babies. I hear children's music everywhere and, best of all, I hear the sound of children's innocent laughter!

The changes are like day and night. As someone who has been personally involved in the life-changing efforts over the past five years, I feel extremely proud. I am sure you as a donor feel the same, right?! Thank you for giving life and hope to these precious children!!"
